

## COVID- 19 Guidelines

### BASEBALL & SOFTBALL

**DISCLAIMER:** Participants, parents, family, and spectators engaging in Baseball, Softball or T-ball and activities related to Baseball, Softball, or T-ball do so with knowledge of the risk and potential exposure involved and agree to accept any and all inherent risks to their personal health.

In order to have a safe and fun season we are asking all coaches, players, & spectators to cooperate with the State issued COVID-19 safety measures.

Please read through and adhere to the following:

- Parents/guardians need to symptom check players before practices & games. If anyone in the family is sick, please stay home!
- **Bleachers are CLOSED.** This will be a lawn chair league! Please spread out around the outfield on the GRASS and physically distance from other family groups. When possible, limit how many people your family brings to the games. Wearing masks is recommended (not required). Encourage high risk individuals to stay home.
- Provide own water, hand sanitizer, masks (not required), etc. Wash hands and use sanitizer frequently.
- Only players and coaches will be allowed in the dugouts.
- No food or sunflower seeds in the dugouts. No sharing water bottles.
- We encourage all players, if possible, to bring their own equipment. If unable to do so, the City has still issued batting helmet, bats, and catchers gear to teams. This equipment should be sanitized in between use.
- When your team is finished, please exit the complex immediately so we can maintain safe social distancing between games and start the next games on time with safe social distancing.
- Sanitizer will be available for shared equipment. Players and Coaches will be responsible for sanitizing equipment and dugouts in between games.
- Teams give a cheer and raise a hat for the other team at the end of the game in place of high fives!
